Daniel Goldner, Chairman  
New Hampshire Public Utilities Commission  
21 South Fruit Street, Suite 10  
Concord, NH 03301-2429

**RE:** Docket No. DE 22-060 - Consideration of Changes to the Current Net Metering Tariff Structure,  
Including Compensation of Customer-Generators  
Joint party update on responses to record requests

Chairman Goldner:

Liberty Utilities (Granite State Electric) Corp. d/b/a Liberty; Public Service Company of New Hampshire d/b/a Eversource Energy; Unitil Energy Systems, Inc.; Conservation Law Foundation; Clean Energy New Hampshire; Granite State Hydropower Association; and Standard Power of America (“Responding Parties”) provide an update regarding the record requests issued in the Commission’s April 24 prehearing order asking for responses from the “settling parties” in this docket (the “Order”).

There were two motions for rehearing filed on the Order, both requesting that the record requests be rescinded. The first was filed May 5, the second on May 14. The 30-day response period for an order on the first motion concluded on June 5, and the 30-day window for the second motion ends this Friday June 14 which coincides with the date the Commission requested responses to the information requests be submitted, but to date no orders have been issued on these motions. This letter takes no position on the substance of the motions for rehearing, this is simply to clear up any possible procedural confusion given the uncertainty created by the pending motions. Because it is currently uncertain whether the record requests will remain, the parties will wait for orders resolving both motions before filing responses.

Consistent with current Commission policy this filing is being made electronically only; paper copies will not follow. If you have any questions, please contact me. Thank you for your assistance with this matter.

Sincerely,

Sam Evans-Brown
