Re: IR 22-076 Electric Distribution Utilities - Investigation of Whether Current Tariffs and Programs are Sufficient to Support Demand Response and Electric Vehicle Charging Programs; Letter of Participation

Dear Chairman Goldner:

Weave Grid, Inc.¹ (“WeaveGrid”) hereby notifies the Commission of its participation in the above-referenced proceeding. Please add Steve Bright, Senior Manager, Policy and Regulatory Affairs, East (steve@weavegrid.com) to the docket-related and discovery service lists for this proceeding.

Consistent with the March 17, 2020 secretarial letter suspending the Commission’s rules regarding the filing of paper copies, this letter is being filed only in electronic form.

¹ WeaveGrid is a software company that helps utilities support increased adoption of electric vehicles through greater understanding of customer charging behaviors, managed charging programs, and distribution-level optimization. WeaveGrid’s technology leverages utility and charging data, including the embedded vehicle telematics—data, controls, and communication systems—and the charging equipment to transform unpredictable and disaggregated EV charging loads into a cohesive network of controllable grid resources. We also support utilities in engaging their EV customers with personalized messages, insights, and notifications via the web, email, and text message. WeaveGrid is a market leader in providing these solutions, which we are deploying in utility programs across the United States.

Please contact me if you have any questions or concerns. Thank you.

Very truly yours,

A handwritten signature in black ink, appearing to read 'SMB', with a horizontal line extending to the right across the top of the letters.
