Re: IR 22-076 Electric Distribution Utilities, Investigation of Whether Current Tariffs and Programs are Sufficient to Support Demand Response and Electric Vehicle Charging Programs – DOE Letter Regarding EDI Working Group

Dear Chairman Goldner:

On November 15, 2023, the Public Utilities Commission (Commission) issued Order No. 26, 903 (Order) in the above referenced docket. In the Order, the Commission requested the parties file comments with the Commission concerning whether the Electronic Data Interchange (EDI) working group should be convened by the Department of Energy (Department) or established through a new investigative docket. The Commission requested that participants file written comments on this issue on or before December 15, 2023.

Prior to the Order, the Department received feedback from various utilities, competitive suppliers, and representatives of the community power aggregators regarding deficiencies in the current EDI standards. These industry stakeholders also expressed interest in reconvening the EDI Working Group to facilitate an update of these standards. As such, on December 5, 2023, the Department announced that it will be convening an EDI Working Group in early 2024 with the first meeting focused on working group governance, future agenda items, and other relevant issues. The Department will be reaching out to individual stakeholders to schedule the first stakeholder session, and all relevant information will be posted on the Department website.

Consistent with the Commission's current practice, this letter is being filed in electronic format.

Respectfully Submitted,

A handwritten signature in black ink that reads "Matthew C. Young".
