---

Dear Sirs and Madams,

My name is Kyle McAdam and I am a resident of Gilmanton, New Hampshire. I am writing to you today to ask that you approve of the 2024-2026 triennial energy efficiency plan.

There are many people, families and businesses across the state of New Hampshire that use, shop and save with the NH Saves Program. The approval of the 2024-2026 triennial energy efficiency plan would allow the businesses, families and individuals that rely on the NH Saves program a chance to plan and establish their budgets and plans on activities on energy expenditures and costs. When the last triennial budget plan tottered, many NH energy contractors lost business or left the state. The NH Saves program helps New Hampshire to use energy more efficiently and saves money, resources and because these resources to help create electricity are being used more efficiently, then less waste or pollution are emitted as well.

The NH Saves program is an excellent program that helps the state, residents and businesses and everyone else to save money and help to save the environment. This program is a win/win for everyone. It is because of this, that I ask that you approve of the 2024-2026 triennial efficiency plan.

Thank you very much for considering my thoughts on this subject.  
Have a great day.

Sincerely,  
Kyle McAdam
