---

Dear Friends,

Our church has just voted to sign contracts to install solar panels and heat pumps to do our part to save energy, improve air quality and reduce costs long term. We took this vote based on the expected state rebates.

Now I understand that the PUC needs to act to preserve NH Saves and the Energy Efficiency Plan. Please continue these rebates so that we all can plan for the future and move ahead. **I am writing in support of NH Saves in Docket 23-068.**

Thank you  
Sarah Thorne
