Re: DE 23-068, Electric and Gas Utilities, 2024-2026 Triennial Energy Efficiency Plan
Commission's Second Set Record Requests – Corrected Attachment

Dear Chairman Goldner:

On September 22, 2023, the Joint Utilities¹ filed their responses to the New Hampshire Public Utilities Commission's (the "Commission") second set of Record Requests in the above-referenced docket. After filing, Unitil Energy Systems, Inc. ("UES") discovered that in the Attachment to Data Request PUC 2-003-3, it inadvertently provided annual and lifetime savings data in MWh instead of kWh. This error appeared on page 5 of 5. In order to correct this error, UES has enclosed a corrected Attachment to Data Request PUC 2-003-3. The figures have been updated to the correct units (changed to kWh) and these corrections are highlighted in yellow.

Please note that the corrections to the units on page 5 resulted in changes to the calculations on the first page, which also have been highlighted in yellow.

Lastly, the PDF version of the Attachment to Data Request PUC 2-003-3 did not identify the utility to which each page pertains. For the sake of clarity, UES has added the name of the utility to the page on which its corresponding data appears.

Please do not hesitate to contact me if you have any questions regarding the enclosed filing.

Sincerely,

A handwritten signature in black ink that reads "Matthew Campbell".

Matthew C. Campbell

Enclosures
