Procedural Order Re: Tariff Compliance

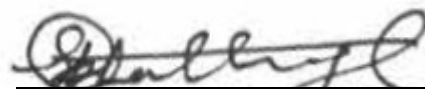

On October 30, 2024, Northern Utilities, Inc. (Northern) filed a compliance tariff pursuant to Order No. 27,068 with an effective date of November 1, 2024. Having reviewed the filing, the Commission finds that the compliance tariff is consistent with Order No. 27,068 and New Hampshire Code of Administrative Rules, Puc chapter 1600. The Commission accepts the compliance tariff, which will be placed in our permanent file. Northern may use a copy of the tariff filing submitted on October 30, 2024, to this docket as the authorized version of the tariff for its records.

Despite approving the tariff filing, as articulated in Line 10 of page 169, the Commission has detected a perceived error on Line 4 of page 169 filed on October 30, 2024. The carrying costs for the Residential Non Heating R-6 class appear to reflect the carrying costs of the class for November 2022 to April 2023, not November 2023 to April 2024 as indicated on the compliance tariff page 169. The Commission directs Northern to provide either a written explanation, or an updated compliance tariff page addressing this perceived error. Northern shall submit this filing by November 26, 2024.

So ordered, this nineteenth day of November, 2024.
