PUBLIC SERVICE COMPANY OF NEW HAMPSHIRE d/b/a
EVERSOURCE ENERGY

Consideration of Effects of SB 577 on Order No. 25,213

PETITION FOR INTERVENTION OF
THE CITY OF BERLIN, NEW HAMPSHIRE

NOW COMES the City of Berlin, New Hampshire (“the City”) and hereby petitions the New Hampshire Public Utilities Commission for intervention in the above-captioned proceeding pursuant to RSA 541-A:32 and NH Code Admin. Rule Puc 203.17. In support of its Petition for Intervention, the City states the following:

1. On July 26, 2010, Public Service Company of New Hampshire (“PSNH”) filed a petition for approval of a power purchase agreement (“PPA”) with Laidlaw Berlin BioPower, LLC (“Laidlaw”) for the purchase of energy, capacity and renewable energy certificates (“RECs”) pursuant to RSA 362-F:9. The subject generation facility is a 70 MW name-plate biomass-fueled renewable energy source located in the City on the site of the former Fraser Pulp mill (“the Facility”).
2. The City was granted full intervenor status by the Commission in this matter on September 29, 2010 (see, Order #25,158 dated October 15, 2010); and the City actively participated throughout the course of this matter, which ultimately resulted in the subject Order #25,213.
3. The City continues to have a direct interest in the viability of the Facility, given its location within the City, the Facility’s proven performance for driving economic

redevelopment within the City and the surrounding North Country since the date of the subject Order, and the fact that the power from the Facility has been and will continue to be generated and distributed within the City.

4. The City, therefore, has substantial interests that will be affected by the above-named proceeding.

WHEREFORE, the City of Berlin respectfully requests that the Commission renew and reaffirm the prior grant of full Intervenor status, without conditions, to the City in the above-named proceeding and to order such other and further relief as may be just and equitable.

Respectfully submitted,

THE CITY OF BERLIN
