Re: DT 07-011, Verizon Sale of Assets to FairPoint
Memorandum Outlining Stipulated Filing Requirements

Dear Ms. Howland:

At the close of hearings on Tuesday, February 5, 2008, the Chairman requested Staff and FairPoint to provide a memorandum regarding the filing requirements stipulated in the Settlement Agreement signed by FairPoint, Verizon, and Staff. Attached is the requested memorandum with spreadsheet listing of filing requirements.

If you should have any questions regarding the above, please do not hesitate to contact me.

Sincerely,

A handwritten signature in cursive script that reads "Lynn Fabrizio".

Lynn Fabrizio
Staff Attorney

SUBJECT: DT 07-011, Verizon Sale of Assets to FairPoint
Stipulated Filing Requirements

TO: Chairman Getz
Commissioner Morrison
Commissioner Below
Executive Director Howland
General Counsel Kreis

On January 24, 2008, FairPoint and Verizon jointly filed a settlement agreement entered into with Staff proposing conditions to resolve outstanding issues in Docket No. DT 07-011. The agreement contains numerous filing requirements required of FairPoint. At the close of hearings on the agreement on Tuesday, February 5, 2008, the Chairman requested FairPoint and Staff to provide a list of all such requirements to parties in the docket. The requested listing is attached. FairPoint concurs in both this memorandum and the attached listing of filing requirements.

This memorandum and attachment serve to clarify the filing requirements included in various sections of the settlement agreement. Clarifications include to whom the various filings will be addressed and the nature of the filings themselves, including frequency and duration of the requirements. All non-confidential information will be available for public inspection, as it is today, regardless of how or with whom it is filed at the Commission.

The intent of the signatories in developing specific filing requirements was to ensure efficient and effective implementation of the settlement agreement. The filing requirements are divided into three categories: On-Going, Compliance, and Adjudicative. On-Going filings are periodic (monthly, semi-annual, annual) reports that FairPoint will submit to either Staff or the Commission's Executive Director. Compliance filings will be submitted either on a one-time basis or monthly for a finite duration. Adjudicative filings are those reports requiring Commission review and, in some cases, approval, through a docketed adjudicative proceeding.

All filing requirements are subject to the Right To Know Law (RSA 91-A) and, therefore, will be made in accordance with normal Commission procedures. Thus, all non-confidential materials will be made publicly available in the normal course of business through the Commission's document archives and website. To the extent necessary, and except as noted below, confidential materials will be filed in accordance with RSA 378:43. Materials provided in the course of adjudicative proceedings will be provided to parties entitled to receive them, in accordance with confidentiality requirements. Staff recommends that FairPoint submit all non-confidential on-going and compliance filings through the Commission's electronic records filing system and be made available to members of the public through the Commission website. The agreement does not contemplate separate filings to the Office of Consumer Advocate (OCA) because it is understood that the OCA will continue to have access to filings made to the Commission in the normal course of operations.

The Notes/Bonds are being offered as a private placement under Section 4 (2) of the Securities Act of 1933 and thus FairPoint must limit distribution to only accredited (sophisticated) investors (determined based on net worth, annual compensation and other criteria) and not more than 35 non-accredited investors. If the Description of Notes, which is a fundamental part of the offering document, is made public such disclosure could be construed as a general solicitation of investors and could cause the offering to not be a valid private placement. In addition, as explained by Mr. Leach during the hearings, premature disclosure of the Description of Notes or the proposed final Credit Agreement (even if inadvertent) could adversely affect the marketing of the Notes/Bonds and the placement of the debt. Accordingly, the final Credit Agreement and the near-final Description of Notes should be filed *in camera* with the Commission.
