Re: DT 07-011, Establishment of Website for Access to  
Joint Petitioners' Publicly Filed Documents

Dear Ms. Howland:

Enclosed for filing are a notice and extranet registration form that are being provided to parties in this proceeding.

As agreed at the February 27, 2007 technical session, the Verizon and FairPoint companies have established an extranet website to make available on line all of their publicly filed documents in the three regulatory approval dockets pending in Maine, New Hampshire and Vermont. This will allow the parties to any of the three proceedings to have access over the Web to Verizon's and FairPoint's public filings made in any of the three proceedings. Confidential documents covered by RSA 378:43 and protective agreements will not be posted on the extranet

If you have any questions, please do not hesitate to contact my office.

Very truly yours,

A handwritten signature in cursive script that reads "Victor D. Del Vecchio".

cc: DT 07-011 Service List

To: Parties to Verizon-FairPoint Regulatory Proceedings and Regulatory Commissions/Board in Maine (Docket No. 2007-67), New Hampshire (Docket No. DT 07-011), and Vermont (Docket No. 7270)

From: Counsel for the Verizon and FairPoint Companies

Date: March 23, 2007

As you know, the Verizon and FairPoint companies are filing today their direct testimony in the three regulatory approval dockets pending in Maine, New Hampshire and Vermont. Verizon and FairPoint are serving and filing the testimony by the methods required by the procedural rules in each state. In addition, they will be making the testimony available on line, through an extranet web site (the "Extranet"). In the future, Verizon and FairPoint will be posting on the Extranet all of their publicly available filings as they are made in each state. This will allow the parties to any of the three proceedings to have access over the Web to Verizon's and FairPoint's public filings made in any of the three proceedings. Confidential documents covered by a protective order or other similar mechanism will not be posted on the Extranet

We hope you find the Extranet helpful. To gain access, you only need to complete the attached registration form and return it to William Hewitt at Pierce Atwood ([whewitt@pierceatwood.com](mailto:whewitt@pierceatwood.com)). A password and log-in instructions will then be issued, and you will be able to access the Extranet at <http://www.pierceatwood.com/extranet>.

Additional details and instructions will be provided with your password. In addition, although Verizon and FairPoint will do their best to ensure that the content on the Extranet is up to date, there may be slight delays in posting information due to the press of business. We appreciate your patience while new content is being posted. If you experience any technical issues, such as a problem with your password or access to the Extranet, please contact Pierce Atwood's help desk at [hdesk@pierceatwood.com](mailto:hdesk@pierceatwood.com). A contact list for other issues that you might encounter will be posted on the Extranet for your use when you log in.

Please feel free to call the attorneys for Verizon or FairPoint if you have any questions concerning this matter.
