

**FairPoint Communications, Inc.**  
**State of New Hampshire**  
**Docket No. DT 07-011**

**Respondent:** Michael Haga  
**Title:** Director of Billing and  
Operations Support Services

**REQUEST:** New England Cable and Telecommunications Association, Inc. and  
Comcast Phone of New Hampshire, LLC - Rebuttal

**DATED:** September 20, 2007

**ITEM:** NECTA/CPNH - 24R Please identify any ILEC that has integrated the WISOR system with  
other systems that FairPoint plans to implement and provide any  
documents referring or relating to such integration.

**REPLY:** **OBJECTION:** FairPoint objects to Data Request 24R on the  
grounds that it may seek confidential or proprietary information of a  
third party which FairPoint is not authorized to disclose. FairPoint  
further objects to Data Request 24R on the grounds that it is  
overbroad, unduly burdensome and not reasonably calculated to lead  
to the discovery of admissible evidence. Subject to and without  
waiving these objections, FairPoint will provide information  
responsive to Data Request 24R. [Objection served September 25,  
2007.]

FairPoint is not aware of other examples whereby the WISOR system  
has been integrated with the specific application being utilized as the  
new service order engine. However, both systems transmit and  
receive electronic messages in LSOG and ASOG formats.
