Hazardous conditions outside your home

Search Help

Call your local Verizon repair office immediately if you have hazardous conditions outside your home such as downed or dangerous telephone wires. Hazardous conditions include:

Search online by keyword or query

- Wires that are snapped, broken, or hanging dangerously low
- A tree or other large object leaning on wires
- Any other hazardous conditions related to telephone wires

Business Customer

Follow the steps below to retrieve your local repair office telephone number:

Help for You

1. Access the [Verizon Contact Us page](#).
2. Select the state in which you receive service and the Contact Us page opens.
3. Scroll down to the Repair (24 hours) number.
4. Call this telephone number to contact Verizon about the hazardous conditions outside your home.
