**ELECTRIC AND GAS UTILITIES**

**Investigation of Energy Commodity Procurement  
(Renewable Portfolio Standard, Default Service Electric Power, Cost of Gas)  
Methodology and Process**

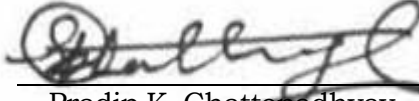

**Procedural Order Re: Request for Clarification and Extension**

On March 23, 2023, the New Hampshire Department of Energy (DOE) filed a request for the Commission to clarify its March 17 procedural order requiring responses to record requests and to extend the March 31, 2023 response deadline. The DOE did not indicate the positions of the other parties regarding these requests, but no responses have been filed as of today's date.

Given the short amount of time remaining before the March 31 deadline, the Commission waives New Hampshire Code of Administrative Rules, Puc 203.07(e). The Commission GRANTS the request for clarification, as described in the DOE's March 23 request, i.e., it may respond to Record Request 12 by using data on competitive electric power supplier prices derived from archival files containing information originating from the DOE's comparative shopping page and filtering that data by 6-month product offerings capturing the price, the renewable percentage of the product, and the timeframe in which the product was offered. The Commission also GRANTS the DOE's request to extend the governing deadline regarding this response, so that the DOE is requested to submit its response to Record Request 12 on or before April 10, 2023.

So ordered, this twenty-eighth day of March, 2023.
