Subject: Comment on docket 22-060

EXTERNAL: Do not open attachments or click on links unless you recognize and trust the sender.

To whom it may concern:

As a residential electricity ratepayer in New Hampshire, I strongly endorse the settlement agreement on Docket 22-060 regarding net energy metering and urge the PUC to approve it. Encouraging the installation of solar arrays benefits all electricity consumers by making our grid more resilient, reducing the long-term costs of electricity, and mitigating climate change. A predictable net metering rate facilitates investment in solar power generation. Please enjoy this moment of agreement among often contentious parties by approving the agreement that they have hammered out.

Thank you for your consideration.

Sincerely,

Robert Haring-Smith
