Governor Sununu,

(cc: NH-PUC, NH-DOE)

Having just learned that the NH Public Utilities Commission is about to release an Order concerning PUC Docket DE 22-060 on Changes to the Current Net Metering Tariff Structure I want to express my concerns.. I understand a Settlement Agreement has been filed by the three investor-owned electric utilities, Clean Energy NH, Conservation Law Foundation (CLF), the Office of the Consumer Advocate (OCA), and the NH Hydro Association.

I urge the PUC to accept this Settlement Agreement. I believe it is crucial that our electricity production be decentralized for security and efficiency. When citizens can benefit financially from investing in electric generation, they also benefit from affordable power for heat pumps, EVs, etc. If Net Metering is less advantageous for independent producers our economy will be stifled.

I am copying the PUC Clerk on this email so that my concern and support for the Settlement Agreement will be entered into the docket.

Sincerely,

David Erikson

active member and current chair of the new Weare Energy Commission

Weare, NH
