---

Governor Sununu,

(cc: NH-PUC, NH-DOE)

I recently learned that the NH Public Utilities Commission is about to release an Order concerning PUC Docket DE 22-060 on Changes to the Current Net Metering Tariff Structure. I understand a Settlement Agreement has been filed by the three investor-owned electric utilities, Clean Energy NH, Conservation Law Foundation (CLF), the Office of the Consumer Advocate (OCA), and the NH Hydro Association.

I urge the PUC to accept this Settlement Agreement.

A large hit to Net Metering will negatively affect hundreds of NH workers and small businesses such as my own. The hit could bankrupt the small local companies who compete with the large out of state companies. Then all the money that was staying local will be going out of state.

Solar suppliers like Greentech, who is a national company, could potentially be pushed out of state.

Can you please explain why altering Net Metering at this point is a good idea?

I am copying the PUC Clerk on this email so that my concern and support for the Settlement Agreement will be entered into the docket.

Sincerely,

Nate Preisendorfer
