Subject: Net metering in NH, PUC Docket DE 22-060

EXTERNAL: Do not open attachments or click on links unless you recognize and trust the sender. _____

Dear Governor Sununu,

I recently learned that the NH Public Utilities Commission is about to release an Order concerning PUC Docket DE 22-060 on Changes to the Current Net Metering Tariff Structure. I understand a Settlement Agreement has been filed by the three investor-owned electric utilities, Clean Energy NH, Conservation Law Foundation (CLF), the Office of the Consumer Advocate (OCA), and the NH Hydro Association.

I urge the PUC to accept this Settlement Agreement.

Net metering has been a vital incentive to help transition away from fossil fuels and many projects (including solar on my own house and my business) would not be possible without net metering. Any excess solar I generate goes to my neighbors and provides a significant value to our grid and to the community. Without net metering we will be encouraging people who want to avoid fossil fuels to go off grid, which will weaken the entire grid making it more expensive and less accessible to everyone.

I am copying the PUC Clerk on this email so that my concern and support for the Settlement Agreement will be entered into the docket.

Sincerely,

Kimberley Quirk
