As a Cornish, NH, resident, I am writing to implore you to support the Settlement Agreement filed by CENH, the Conservation Law Foundation, the Office of the Consumer Advocate, and the NH Hydro Association. My husband and I have personally invested in a major solar panels system, partly due to the incentive of net metering, and we would be unfairly affected if the Agreement is not ratified. In addition, by not supporting the Agreement, you run a serious risk of having a deeply chilling effect on future projects. NH should be in the vanguard of renewable energy, not the basement.

Thank you for your attention to this matter.

Lisa Kaeser
