Governor Sununu,

(cc: NH-PUC, NH-DOE)

I recently learned that the NH Public Utilities Commission is about to release an Order concerning PUC Docket DE 22-060 on Changes to the Current Net Metering Tariff Structure. I understand a Settlement Agreement has been filed by the three investor-owned electric utilities, Clean Energy NH, Conservation Law Foundation (CLF), the Office of the Consumer Advocate (OCA), and the NH Hydro Association.

**I urge the PUC to accept this Settlement Agreement. As an energy efficiency consultant, I see net metering help our clients in a multitude of ways. Mainly by incentivizing our clients in adopting solar as part of their projects. Net metering supports a clean energy grid, which is of extreme importance in this state with the volatility of energy prices and for our collective future.**

I am copying the PUC Clerk on this email so that my concern and support for the Settlement Agreement will be entered into the docket.

Sincerely,

Laura Samoisette
