Subject: Berlin resident and sustainability advocate concerned about the future of net metering in NH (PUC Docket DE 22-060)

EXTERNAL: Do not open attachments or click on links unless you recognize and trust the sender.

Governor Sununu,

I recently learned that the NH Public Utilities Commission will release an Order concerning PUC Docket DE 22-060 on Changes to the Current Net Metering Tariff Structure.

I understand a Settlement Agreement has been filed by the three investor-owned electric utilities, Clean Energy NH, Conservation Law Foundation (CLF), the Office of the Consumer Advocate (OCA), and the NH Hydro Association.

Given the pressing need for sustainable energy solutions, I urge the PUC to accept this Settlement Agreement without delay.

As a practicing sustainability practitioner living in NH, I want my state to lead in bringing distributed energy to the community.

Listen to me when I tell you this is the right thing to do politically, environmentally, and for the children of this state.

Distributed solar energy builds resilience, and solar energy can be an economic engine for the state.

Fell free to call or write me for more information on why this matters.

By copying the PUC Clerk on this email, I hope to ensure that my strong support for the Settlement Agreement is duly noted and entered into the docket.
