Governor Sununu,
(cc: NH-PUC, NH-DOE)

I recently learned that the NH Public Utilities Commission is about to release an Order concerning PUC Docket DE 22-060 on Changes to the Current Net Metering Tariff Structure. I understand a Settlement Agreement has been filed by the three investor-owned electric utilities, Clean Energy NH, Conservation Law Foundation (CLF), the Office of the Consumer Advocate (OCA), and the NH Hydro Association.

I urge the PUC to accept this Settlement Agreement. NEM ensures that I have the right to generate some or all of my own electricity and be fairly compensated for excess energy I feed into the grid. Allowing this promotes energy market competition and customer choice.

I moved to New Hampshire because I want to live free from the shackles of the greedy, monopolistic energy industry and NEM is a first step for me to take control of my energy bill. I expect my elected officials to be working for me not the fossil fuel industry. Show us your allegiance is to your constituents, the citizens of this state, by supporting Net Metering policies.

I am copying the PUC Clerk on this email so that my concern and support for the Settlement Agreement will be entered into the docket.

Sincerely,

Jean Foster
Peterborough, NH
