Governor Sununu, PUC and NH DOE;

I have learned that a Settlement Agreement has been signed by the 3 Investor Owned Utilities and a variety of other advocacy and nonprofit organizations to improve our net metering policy.

I urge the PUC to accept this Settlement Agreement. We should be creating a free market that does not discriminate amongst types of power and certainly not against local, resilient power when compared to distant power that must be brought via transmission lines. Let's use the best data we have and **value net metered power generated for the benefit it provides; no more, no less.**

I am copying the PUC Clerk on this email so that my concern and support for the Settlement Agreement will be entered into the docket.

Sincerely,

Phillip Stephenson
Hollis, New Hampshire
