Subject: Concerned about the future of net metering in NH (PUC Docket DE 22-060)

EXTERNAL: Do not open attachments or click on links unless you recognize and trust the sender.

Governor Sununu,

I recently learned that the NH Public Utilities Commission is about to release an Order concerning PUC Docket DE 22-060 on Changes to the Current Net Metering Tariff Structure. I understand a Settlement Agreement has been filed by the three investor-owned electric utilities, Clean Energy NH, Conservation Law Foundation (CLF), the Office of the Consumer Advocate (OCA), and the NH Hydro Association.

I urge the PUC to accept this Settlement Agreement.

Like many NH residents, I am solely reliant on oil to heat my home. Heating oil is subject to seasonal price volatility and pollutes our air and water. Net metering and home solar will allow me to lower my heating and utility bills, help the environment, and enjoy a better quality of life. It will also allow me to install a system that does not rely on batteries, saving me thousands of dollars up front and allowing me to share power with my neighbors on the grid. Please do the right thing and consider the people of NH over powerful corporations and lobbyists in this upcoming decision. Thanks you for your time and consideration.

I am copying the PUC Clerk on this email so that my concern and support for the Settlement Agreement will be entered into the docket.

Sincerely,
Kevin Moynihan
Gorham, NH
