---

Dear Governor Sununu,

I recently learned that the NH Public Utilities Commission is about to release an Order concerning PUC Docket DE 22-060 on Changes to the Current Net Metering Tariff Structure. I understand a Settlement Agreement has been filed by the three investor-owned electric utilities, Clean Energy NH, Conservation Law Foundation (CLF), the Office of the Consumer Advocate (OCA), and the NH Hydro Association.

**I urge the PUC to accept this Settlement Agreement.** I'm a renter and I don't have permission to install solar panels on my home. Still, I hope one day to be able to take advantage of solar energy and other sources of clean, renewable energy. In the meantime, for the benefit of the planet, I want to encourage New Hampshire's transition to clean energy and its investment in solar power. While net metering is not perfect, it provides significant cost relief for those who are installing solar cells in their businesses, homes, houses of worship, and municipal facilities. I don't want to see the solar industry grind to a halt, lose time and staff, and have to start up again. That's just bad for everyone and for the planet.

I am copying the PUC Clerk on this email so that my concern and support for the Settlement Agreement will be entered into the docket.

Sincerely,  
Rabbi Daniel Aronson
