Re: Northern Utilities, Inc., Docket DG 23-085,
October 2024 Monthly Cost of Gas Report

Chair Goldner,

Pursuant to Commission Order No. 26,713 in Docket DG 23-085, enclosed is Northern Utilities Inc.'s ("Northern") current calculation of its projected over or under-collection of gas costs for the 2024 summer season.

Northern's current calculation of costs has been updated to reflect actual costs and revenues for May through September 2024 and the NYMEX closing price for October 2024. The updated calculations result in a projected \$16,594 under-collection of gas costs for the 2024 Summer Season. Support for these calculations is provided in the attached summary and tables. Due to October being the last month of the summer season, there is no opportunity to adjust summer COG rates at this time. Therefore, this report is submitted for informational purposes only.

If you have any questions regarding this filing, please do not hesitate to contact me or Chris Kahl at (603)773-6425.

Sincerely

A handwritten signature in black ink, appearing to read "Patrick H. Taylor", written over a horizontal line.
