RE: Docket No. DE 23-091, Public Service Company of New Hampshire, d/b/a
Eversource Energy, Petition for Adjustment to Stranded Cost Recovery Charge
Filing of Technical Statement Regarding Burgess PPA-Related Cost Recovery

Dear Chairman Goldner:

Public Service Company of New Hampshire d/b/a Eversource Energy (the “Company”) hereby submits this Technical Statement in response to the Commission’s *Procedural Order Re: Scheduling of Consolidated Hearing on August 14, 2024*, issued on June 14, 2024 (the “Procedural Order”). In the Procedural Order, the Commission indicated that it had scheduled the August 14th hearing in part to assess “whether certain elements of the Eversource [Stranded Cost Recovery Charge (“SCRC”)] Tariff should be sun-setted by the end of the current SCRC rate year (i.e., by January 31, 2025, or possibly before) as a consequence of the termination of the Burgess Plant [Power Purchase Agreement (“PPA”)], and how a final Burgess-Plant-related reconciliation for the SCRC can be timely effectuated in advance of Eversource’s next SCRC filing, expected in December 2024.”

This Technical Statement is submitted in order to provide the Commission with a revised set of rate schedules and related supporting information that illustrates a potential early “sun-setting” alternative for the Burgess PPA-related costs recovered through the SCRC. The Company makes this submission purely based on the Commission’s request for information and is not proposing any change to the SCRC rates currently in effect. The Company is providing this information in advance of hearing to allow the Commission time to review, and the Company’s witnesses will be prepared to discuss these schedules and related information during the hearing scheduled for August 14th.

Consistent with current Commission policy, this filing is being made electronically only and paper copies will not follow. If you should have any questions, please contact me.

Sincerely,

/s/ David K. Wiesner

David K. Wiesner
