2024 Energy Service Solicitations

Procedural Order Re: Record Requests

The Commission requests that Public Service Company of New Hampshire d/b/a Eversource Energy (Company) respond to the following record requests on or before the close of business on September 10, 2024:

Record Request 1

Are there any advantages or disadvantages to utilizing the ISO-NE Day Ahead Energy Market rather than purchasing the energy in the ISO-NE Real Time Energy Market?

Record Request 2

The Company's third-party load forecasting software only uses historical load data and weather forecasts to produce the next day load forecast. Does the Company have a plan to feather in Community Power Aggregation conversions on a monthly or 6-month basis?

Record Request 3

Please provide historical evidence where price spikes caused the monthly Real Time All Hours Locational Marginal Price for the New Hampshire zone to increase by 10% or more. In other words, if high priced outliers were removed from the monthly RT All Hours LMP calculation, please provide examples where the calculated monthly RT All Hours LMP would drop by 10% or more.

Record Request 4

Please compare the 6-month residential retail price to the ISO-NE equivalent price (as in the Company's monthly report) for the last 5 years. Also provide the dollar impact (price delta * volume) for each 6-month period and the 5 year total.

So ordered, this thirtieth day of August, 2024.
